

The First Shade of Grey (Three Shades of Grey) (Volume 2)

A warrior walks through a world that needs but no longer wants him or his brethren. A girl seeks to escape her fathers growing empire and insatiable lust for control. A councilman seeks the truth behind the inner councils plans. A lord knows only his lust for power and the forces that govern his rule. A soldier shies from his desires in pursuit of love. A leader risks his life for the continued freedom of his people. Three governments rule the known world. Lord Vingthor and his growing empire. The council and the utopian society they govern. Gabriel and his nation of free men. War is forever looming in the quest for warmer climates, and the allure of near immortality. The Council, Lord Vingthor, and Gabriel are just playing the game of a woven fate where only the few know the horrors and triumphs of the ending. Salvation is the same as damnation depending on the point of view, and when the pawns begin to move, the king is already surrounded.
